Information Kiosk Software

**TOUCHPRESENTER™**

# QUICK FACTS TOUCHPRESENTER™

## Powerful & Secure

TouchPresenter has the features you need to create information kiosk content from scratch or link to existing materials, e.g. videos, slide shows, audios, PDF documents, websites...

**Deliver  
information  
24/7**

Empower your customers and visitors with self-service information.

TouchPresenter enhances the kiosk security, too: It runs in full screen mode; only pre-determined buttons let the user communicate with the kiosk. It also requires a password to stop it from running.

## Fast & Easy

Building kiosk content is fast and straightforward. There is no limit as how few or how many kiosk pages you can create.

**Engage your  
audience**

With intuitive self-service information.

Time-saving tools like the sensor area tool make it possible to create interactive hotspots (touchable links) quickly and conveniently.

## Customizable

The kiosk appearance can be branded and the kiosk content appearance can be styled along your corporate design to visually appeal to your kiosk users and to promote your brand.

**Offline or  
Online**

Run the information kiosks the way it best fits your needs and infrastructure.

Keeping the content updated is easy too. The electronic content is exchanged quickly. Outdated materials and print costs are a thing of the past.

# TouchPresenter Information Kiosk Software

## Easy To Use Information Kiosk Software

### Main Features:

## TouchPresenter™

### Manage information kiosks from A-Z

TouchPresenter helps the user create interactive information kiosk content and make the content accessible through self-service kiosks.

Content can either be created from scratch directly with TouchPresenter or documents and media created with other programs can be imported and linked with other content.

Interactive kiosk content creation

Integrated play or run mode

Integrated lock-down browser

Scheduled content display support

Usage statistics

Sold as software license (one license per installed device)

Information Kiosk Services

**SERVICES THAT SAVE YOU TIME**

# INFORMATION KIOSK SERVICES

Turnkey solution delivered to your door steps

## Turnkey Solution

We integrate the selected hardware components and software and supply the integrated kiosk ready to use.

Content creation services; add-on service

## Content Creation

We create the kiosk content using materials and artwork received from you.

Services at your premises; add-on service

## Local installation & training

Our technician comes to you at the time of the information kiosk delivery and sets-up and test-runs the kiosk. While at your premises, he trains your staff in the use of the kiosk and the use of the software.
